

# Want your own celebrity kid? Service offers sperm from celebrity look-alikes

July 30, 9:01 AM · Michele Johansen & Lexie Tigre - Celebrity Kids Examiners

Want your kid to look like a Twilight star? (California Cryogenics)

This could be the most creative gimmick for a fertility clinic yet. [California Cryobank](#) now offers a program called CCB Donor Look-a-Likes, which allows you to choose a sperm donation from someone who LOOKS like your favorite celebrity. So maybe you could have a baby that looks like Shiloh or Suri - of course, it helps if you look like Angelina Jolie or Katie Holmes.

The program cautions that they don't guarantee your kids will look like a celebrity's off-spring.

Perhaps on the icky side, the sample image on the page shows someone who looks (according to the company) like Taylor Lautner, the 17 year old star of Twilight (see the picture above from the website). Although many women find the young actor attractive, but that would give a whole new meaning to being a "Twilight Mom"!
